

Discoveryland News

October is coming in strong here at Discoveryland. It's a time for change in our school and all over our nation as autumn has officially been welcomed in. There is a new energy that shows up when the weather changes and kids are getting into the swing of things. We welcomed many new families into our school and are feeling blessed our family is growing again. Thank you for sharing us with your friends and family.

SAY CHEESE!

October 6 is picture day. This is always a great time for families to get cute photos of their children to share or gift to family members. Grandparents, Aunts and Uncles LOVE framed pictures as gifts. Lifetouch is a professional company that has been a part of our center for many years. They are now owned by JC Penny's and Shutterfly. If you do not want pictures taken of your child that day, please inform your homeroom teacher so we do not call them for photos. Also, if you do not send a form back to school, your child will not have pictures taken. So please get those in to us if you do.

We are also working on trying to find a place to safely take the children for a field trip. I will keep everyone informed as to where and if we do. This is not mandatory. You do not have to go if you are not comfortable with being in a public space with other schools present. But please remember school will be closed that day even if you decide not to go.

We are also looking forward to our annual Dress up day. This is the time for your child to share with us and their friends their costumes! We do a little parade around our school so each class can see their friends all dressed up. If you would like to send a change of clothes for after the parade, please do so.

That does it for me. Thank you again for giving us your little ones day in and day out to work with. They are truly a joy. Those who have just begun are still needing a lot of extra love from us. And those who have been here a while have gotten into the groove of how things are done. Stories are being shared, friendships are being made and tested. And learning is happening all day long. We love then and are grateful for you.

Ms. Penny Corpus, Director
